

Ra-Tech Electrical has been a service provider for the Region of Peel for seven years. Over the course of the seven years Rick Arthur has provided a 24 hour service looking after electrical and mechanical equipment at our water treatment and sewage pumping stations. They have exceptional technical abilities including programming and trouble shooting our scada system, preventative maintenance and repair.

Ra-Tech's electricians are qualified in confined space entry and are able to provide their own equipment along with documentation. Quality and safety compliance is important to the Region of Peel which Ra-Tech has been able to provide.

Ra-Tech services have proven to be invaluable, and always professional. It is without hesitation that I recommend Ra-Tech Electrical for your consideration as a service provider.

Should you have any further questions please do not hesitate to contact me directly.

Regards

Alex MacEachern
Foreman of Caledon Water treatment
And distribution
